

Exhibit No. 1Date 2/6/07Bill No. 51**2007 Montana Legislature***2/6/07 proposed amendments combining SB 51 and SB 107*About Bill -- Links**SENATE BILL NO. 51****INTRODUCED BY B. HAWKS****BY REQUEST OF THE EDUCATION AND LOCAL GOVERNMENT INTERIM COMMITTEE**

A BILL FOR AN ACT ENTITLED: "AN ACT REVISING GROWTH POLICY AND SUBDIVISION LAWS; REQUIRING GROWTH POLICIES TO CONSIDER FIRE AND WILDLAND FIRE; INCLUDING FIRE AND WILDLAND FIRE AMONG THE NATURAL HAZARDS THAT SUBDIVISION REGULATIONS ARE REQUIRED TO REASONABLY ADDRESS; REQUIRING SUBDIVISION REGULATIONS TO IDENTIFY AREAS UNSUITABLE FOR DEVELOPMENT UNLESS CERTAIN MITIGATION MEASURES ARE TAKEN, INCLUDING USE OF CONSTRUCTION TECHNIQUES PROVIDED IN DEPARTMENT OF LABOR AND INDUSTRY ADMINISTRATIVE RULES; PROHIBITING A GOVERNING BODY FROM INCLUDING CERTAIN BUILDING REGULATIONS IN SUBDIVISION REGULATIONS; AND AMENDING SECTIONS 76-1-601, 76-3-501, AND 76-3-504, MCA."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:**Section 1.** Section 76-1-601, MCA, is amended to read:

"76-1-601. Growth policy -- contents. (1) A growth policy may cover all or part of the jurisdictional area.

(2) ~~A growth policy must include the elements listed in subsection (3) by October 1, 2006. A growth policy must include elements listed in subsection (3)(a) through (i). A growth policy must include the elements listed in subsection (3)(i) by either October 1, 2009 or at the next scheduled review of a growth policy that was adopted as of the effective date of this act, pursuant to subsection (3)(f)(iii), which ever is later.~~ The extent to which a growth policy addresses the elements of a growth policy that are listed in ~~subsection~~ subsection (3) ~~and (4)~~ is at the full discretion of the governing body.

(3) A growth policy must include:

(a) community goals and objectives;

(b) maps and text describing an inventory of the existing characteristics and features of the jurisdictional area, including:

- (i) land uses;
- (ii) population;
- (iii) housing needs;
- (iv) economic conditions;
- (v) local services;
- (vi) public facilities;
- (vii) natural resources; and

(viii) other characteristics and features proposed by the planning board and adopted by the governing bodies;

(c) projected trends for the life of the growth policy for each of the following elements:

- (i) land use;
- (ii) population;
- (iii) housing needs;
- (iv) economic conditions;
- (v) local services;
- (vi) natural resources; and

(vii) other elements proposed by the planning board and adopted by the governing bodies;

(d) a description of policies, regulations, and other measures to be implemented in order to achieve the goals and objectives established pursuant to subsection (3)(a);

(e) a strategy for development, maintenance, and replacement of public infrastructure, including drinking water systems, wastewater treatment facilities, sewer systems, solid waste facilities, fire protection facilities, roads, and bridges;

(f) an implementation strategy that includes:

- (i) a timetable for implementing the growth policy;
- (ii) a list of conditions that will lead to a revision of the growth policy; and

(iii) a timetable for reviewing the growth policy at least once every 5 years and revising the policy if necessary;

(g) a statement of how the governing bodies will coordinate and cooperate with other jurisdictions that explains:

(i) if a governing body is a city or town, how the governing body will coordinate and cooperate with the county in which the city or town is located on matters related to the growth policy;

(ii) if a governing body is a county, how the governing body will coordinate and cooperate with cities and towns located within the county's boundaries on matters related to the growth policy;

(h) a statement explaining how the governing bodies will:

(i) define the criteria in 76-3-608(3)(a); and

(ii) evaluate and make decisions regarding proposed subdivisions with respect to the criteria in 76-3-608(3)(a); and

(i) a statement explaining how public hearings regarding proposed subdivisions will be conducted.

(i-4) A growth policy is required to take into delineate the wildland urban interface and to consider the risk of fire and wildland fire in the jurisdictional area, including but not limited to whether there is a need for regulations requiring:

(i) defensible space around structures;

(ii) adequate ingress and egress to and from structures and developments to facilitate fire suppression activities; and

(iii) adequate water supply for fire suppression; and

(iv) best practices adopted by the department of labor and industry related to development within the wildland-urban interface.

(4) A growth policy may:

(a) include one or more neighborhood plans. A neighborhood plan must be consistent with the growth policy.

(b) establish minimum criteria defining the jurisdictional area for a neighborhood plan;

(c) address the criteria in 76-3-608(3)(a);

(d) evaluate the effect of subdivision on the criteria in 76-3-608(3)(a);

(e) describe zoning regulations that will be implemented to address the criteria in 76-3-608(3)(a); and

(f) identify geographic areas where the governing body intends to authorize an exemption from review of the criteria in 76-3-608(3)(a) for proposed subdivisions pursuant to 76-3-608.

(5) The planning board may propose and the governing bodies may adopt additional elements of a growth policy in order to fulfill the purpose of this chapter."

~~Section 2. Section 76-3-501, MCA, is amended to read:~~

~~"76-3-501. Local subdivision regulations. The governing body of every county, city, and town shall adopt and provide for the enforcement and administration of subdivision regulations reasonably providing for~~

~~(1) the orderly development of their jurisdictional areas;~~

~~(2) the coordination of roads within subdivided land with other roads, both existing and planned;~~

~~(3) the dedication of land for roadways and for public utility easements;~~

~~(4) the improvement of roads;~~

~~(5) the provision of adequate open spaces for travel, light, air, and recreation;~~

~~(6) the provision of adequate transportation, water, and drainage;~~

~~(7) subject to the provisions of 76-3-511, the regulation of sanitary facilities;~~

~~(8) the avoidance or minimization of congestion; and~~

~~(9) the avoidance of subdivisions that would involve unnecessary environmental degradation and danger of injury to health, safety, or welfare by reason of natural hazards, including fire and wildland fire, or by reason of the lack of water, drainage, access, transportation, or other public services or that would necessitate an excessive expenditure of public funds for the supply of the services."~~

~~Section 3. Section 76-3-504, MCA, is amended to read:~~

~~"76-3-504. Subdivision regulations—contents. (1) The subdivision regulations adopted under this chapter must, at a minimum:~~

~~(a) list the materials that must be included in a subdivision application in order for the application to be determined to contain the required elements for the purposes of the review required in 76-3-604(1);~~

Section 22. Section 76-2-203, MCA, is amended to read:

"76-2-203. Criteria and guidelines for zoning regulations. (1) Zoning regulations must be:

(a) made in accordance with the growth policy or a master plan, as provided for in 76-2-201(2); and

(b) designed to:

(i) lessen congestion in the streets;

(ii) secure safety from fire, panic, and other dangers;

(iii) promote public health and general welfare;

(iv) provide adequate light and air;

(v) prevent the overcrowding of land;

(vi) avoid undue concentration of population; and

(vii) facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements; and

(viii) protect from hazards associated with the wildland urban interface including, but not limited to, addressing defensible space, ingress and egress, and water supply for wildland fire suppression, associate the wildland urban interface and best practices standards for development within the wildland urban interface that, at a minimum, address defensible space, ingress and egress, and water supply for wildland fire suppression.

(2) Zoning regulations must be made with reasonable consideration, among other things, to the character of the district and its peculiar suitability for particular uses and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the jurisdictional area.

(3) Zoning regulations must, as nearly as possible, be made compatible with the zoning ordinances of the municipality within the jurisdictional area."

Section 24. Section 76-3-501, MCA, is amended to read:

"76-3-501. Local subdivision regulations. The governing body of every county, city, and town shall adopt and provide for the enforcement and administration of subdivision regulations reasonably providing for:

(1) the orderly development of their jurisdictional areas;

(2) the coordination of roads within subdivided land with other roads, both existing and planned;

(3) the dedication of land for roadways and for public utility easements;

(4) the improvement of roads;

(5) the provision of adequate open spaces for travel, light, air, and recreation;

(6) the provision of adequate transportation, water, and drainage;

(7) subject to the provisions of 76-3-511, the regulation of sanitary facilities;

(8) the avoidance or minimization of congestion; and

(9) the avoidance of subdivisions that would involve unnecessary environmental degradation and danger of injury to health, safety, or welfare by reason of natural hazard, including but not limited to fire and wildland fire, or the lack of water, drainage, access, transportation, or other public services or that would necessitate an excessive expenditure of public funds for the supply of the services."

Section 48. Section 76-3-504, MCA, is amended to read:

"76-3-504. Subdivision regulations -- contents. (1) The subdivision regulations adopted under this chapter must, at a minimum:

(a) list the materials that must be included in a subdivision application in order for the application to be determined to contain the required elements for the purposes of the review required in 76-3-604(1);

(b) except as provided in 76-3-210, 76-3-509, or 76-3-609, require the subdivider to submit to the governing body an environmental assessment as prescribed in 76-3-603;

(c) establish procedures consistent with this chapter for the submission and review of subdivision applications and amended applications;

(d) prescribe the form and contents of preliminary plats and the documents to accompany final plats;

~~(e) — (e)~~ provide for the identification of areas that, because of natural or human-caused hazards, are unsuitable for subdivision development, and The regulations must prohibit subdivisions in these areas unless the hazards can be eliminated or overcome by approved construction techniques; mitigation measures that are acceptable to the governing body.

~~(2) Mitigation measures may only include construction techniques related to wildland fire hazards related to a specific type of structure and hazard that are adopted as administrative rules by the department of labor and industry under Title 50, chapter 60, part 2. If the department of labor and industry has does not adopted rules that include construction techniques for wildland fire hazards as provided in this subsection (1)(a), then the regulations may identify mitigation include construction techniques for wildland fire hazards measures that the governing body considers appropriate, that the governing body considers appropriate.~~

(f) prohibit subdivisions for building purposes in areas located within the floodway of a flood of 100-year frequency, as defined by Title 76, chapter 5, or determined to be subject to flooding by the governing body;

(g) prescribe standards for:

(i) the design and arrangement of lots, streets, and roads;

(ii) grading and drainage;

(iii) subject to the provisions of 76-3-511, water supply and sewage and solid waste disposal that meet the:

(A) regulations adopted by the department of environmental quality under 76-4-104 for subdivisions that will create one or more parcels containing less than 20 acres; and

(B) standards provided in 76-3-604 and 76-3-622 for subdivisions that will create one or more parcels containing 20 acres or more and less than 160 acres; and

(iv) the location and installation of public utilities;

(h) provide procedures for the administration of the park and open-space requirements of this chapter;

(i) provide for the review of subdivision applications by affected public utilities and those agencies of local, state, and federal government identified during the preapplication consultation conducted pursuant to subsection (1)(q) or those having a substantial interest in a proposed subdivision. A public utility or agency review may not delay the governing body's action on the application beyond the time limits specified in this chapter, and the failure of any agency to complete a review of an application may not be a basis for rejection of the application by the governing body.

(j) when a subdivision creates parcels with lot sizes averaging less than 5 acres, require the subdivider to:

(i) reserve all or a portion of the appropriation water rights owned by the owner of the land to be subdivided and transfer the water rights to a single entity for use by landowners within the subdivision who have a legal right to the water and reserve and sever any remaining surface water rights from the land;

(ii) if the land to be subdivided is subject to a contract or interest in a public or private entity formed to provide the use of a water right on the subdivision lots, establish a landowner's water use agreement administered through a single entity that specifies administration and the rights and responsibilities of landowners within the subdivision who have a legal right and access to the water; or

(iii) reserve and sever all surface water rights from the land;

(k) (i) except as provided in subsection (1)(k)(ii), require the subdivider to establish ditch easements in the subdivision that:

(A) are in locations of appropriate topographic characteristics and sufficient width to allow the physical placement and unobstructed maintenance of open ditches or belowground pipelines for the delivery of water for irrigation to persons and lands legally entitled to the water under an appropriated water right or permit of an irrigation district or other private or public entity formed to provide for the use of the water right on the subdivision lots;

(B) are a sufficient distance from the centerline of the ditch to allow for construction, repair, maintenance, and inspection of the ditch; and

(C) prohibit the placement of structures or the planting of vegetation other than grass within the ditch easement without the written permission of the ditch owner.

(ii) Establishment of easements pursuant to this subsection (1)(k) is not required if:

(A) the average lot size is 1 acre or less and the subdivider provides for disclosure, in a manner acceptable to the governing body, that adequately notifies potential buyers of lots that are classified as irrigated land and may continue to be assessed for irrigation water delivery even though the water may not be deliverable; or

(B) the water rights are removed or the process has been initiated to remove the water rights from the subdivided land through an appropriate legal or administrative process and if the removal or intended removal is denoted on the preliminary plat. If removal of water rights is not

complete upon filing of the final plat, the subdivider shall provide written notification to prospective buyers of the intent to remove the water right and shall document that intent, when applicable, in agreements and legal documents for related sales transactions.

(l) require the subdivider, unless otherwise provided for under separate written agreement or filed easement, to file and record ditch easements for unobstructed use and maintenance of existing water delivery ditches, pipelines, and facilities in the subdivision that are necessary to convey water through the subdivision to lands adjacent to or beyond the subdivision boundaries in quantities and in a manner that are consistent with historic and legal rights;

(m) require the subdivider to describe, dimension, and show public utility easements in the subdivision on the final plat in their true and correct location. The public utility easements must be of sufficient width to allow the physical placement and unobstructed maintenance of public utility facilities for the provision of public utility services within the subdivision.

(n) establish whether the governing body, its authorized agent or agency, or both will hold public hearings;

(o) establish procedures describing how the governing body or its agent or agency will address information presented at the hearing or hearings held pursuant to 76-3-605 and 76-3-615;

(p) establish criteria that the governing body or reviewing authority will use to determine whether a proposed method of disposition using the exemptions provided in 76-3-201 or 76-3-207 is an attempt to evade the requirements of this chapter. The regulations must provide for an appeals process to the governing body if the reviewing authority is not the governing body.

(q) establish a preapplication process that:

(i) allows a subdivider to meet with the agent or agency, other than the governing body, that is designated by the governing body to review subdivision applications prior to the subdivider submitting the application;

(ii) requires, for informational purposes only, identification of the state laws, local regulations, and growth policy provisions, if a growth policy has been adopted, that may apply to the subdivision review process;

(iii) requires a list to be made available to the subdivider of the public utilities, those agencies of local, state, and federal government, and any other entities that may be contacted for comment on the subdivision application and the timeframes that the public utilities, agencies, and other

entities are given to respond. If, during the review of the application, the agent or agency designated by the governing body contacts a public utility, agency, or other entity that was not included on the list originally made available to the subdivider, the agent or agency shall notify the subdivider of the contact and the timeframe for response.

(iv) requires that a preapplication meeting take place no more than 30 days from the date that the agent or agency receives a written request for a preapplication meeting from the subdivider; and

(v) establishes a time limit after a preapplication meeting by which an application must be submitted as provided in 76-3-604.

(2) In order to accomplish the purposes described in 76-3-501, the subdivision regulations adopted under 76-3-509 and this section may include provisions that are consistent with this section that promote cluster development.

(3) The governing body may establish deadlines for submittal of subdivision applications.

(4) Subdivision regulations adopted under this section may not include construction techniques other than those intended to mitigate hazards as provided in subsection (1)(e)."

Section 5. 76-13-109, MCA, is amended to read:

"76-13-109. Rules. (4) The department may adopt ~~and enforce~~ reasonable rules for the purpose of:

(1) enforcing and accomplishing the provisions and purposes of this part and part 2; and-

(2) addressing development within the wildland-urban interface, including but not limited to:

(i) best practices for development within the wildland-urban interface; and

(ii) criteria for providing grant and loan assistance to local government and other entities.

NEW SECTION. Section 8. Proposed New Section - Part 9 of Title 50, Chapter 60
(department of labor and industry)

50-60-901 Purpose of Part:

This part would contain the language for the department of labor and industry to adopt the construction techniques in rule for use in mitigating the wildland urban interface hazards referenced in Title 76, Chapter 3, section 504 (1) (e).

The intention is to specifically identify that this part is only for wildland urban interface fire mitigation in support of 76-3-504 and should not be construed as to be part of the state adopted building code.

50-60-902 Enforcement

Language contained here needs to identify enforcement responsibility for the provisions contained in 50-60-901 and should be placed with those who have authority of enforcement under Title 76, chapter 3.

Additionally this section should contain language that provision contained in 50-60-901 may be in addition to and may supersede other provisions found in local building code requirements.

Additional language should detail that enforcement of these provisions by authority vested in Title 76, chapter 3 does not require local jurisdiction to become certified to enforce building codes as detailed in Title 50, chapter 60, section 302

NEW SECTION. Section 7. Effective dates. (1) ~~Section 1, Section 5 and this section~~ The act is effective on passage and approval.

~~(2) Sections 2 through 54 are effective July 1, 2011.~~
